

Explosive Minds

// Teamwork & Communication

“Explosive Minds! make communication come alive as they take you on a fun-filled, unpredictable journey into the unknown. Be prepared to laugh until you cry as boundaries are stretched and you are involved in taking communication to a whole new level.”

Group Training Australia

Biography

Explosive Minds are a dynamic combination of interactive improvised comedy, entertainment and training – with a difference! As Australia’s foremost experts at engaging the nervous system of any audience, their corporate performances are tailored to fit your event every time. The Explosive Minds show involves a crack team of improvisers, able to use your audience’s suggestions to create hilarious scenes on the spot. No scripts, no safety net, just fly by the seat of your pants fun! Every performance then becomes totally unique, as the team creates each comedy scene based on characters and situations taken from your event. Explosive Minds popular Improvisation Workshops use the power of performance to demonstrate skills such as listening and not ‘blocking’ the ideas of others. These workshops enable delegates to discover for themselves that one person alone will never achieve as highly as a team of committed individuals, supporting each other towards a common goal.

Programs

Laughter Academy

The Laughter Academy is a powerful communication program teaching all participants the highly useful vocabulary of improvisation. Perfect for when your entire team must speak the same language, share the same vision and head towards a common goal.

During these workshops the Explosive Minds team highlight the importance of effective communication by asking delegates to work through various scenarios, proving that it’s our own reactions to situations that prevent us from reaching the outcomes we seek.
